***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Overbeck et al.

The Overbeck et al. reference discloses a microarraying apparatus comprising a well platform Mw (see Fig. 4a), but does not disclose it as having height adjustment associated therewith. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the well platform to be height adjustable, since it has been held that the provision of adjustability, where needed, involves only routine skill in the art. *In re Stevens*, 101 USPQ 284 (CCPA 1954).

***Response to Arguments***

Applicant's arguments filed 8-4-03 have been fully considered but they are not persuasive. Applicant's argument that there lacks any motivation or suggestion to modify the Overbeck device to have height adjustability because Applicant has both identified a problem and a solution with the art is acknowledged. However, the concept of adjustability to solve existing problems in many art fields is well known and settled as set forth by *In re Stevens*.

***Conclusion***

Claims 6-12 and 15-20 are allowed.

Art Unit: 3751

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
